Selling on theexchange

MarketAccess on theexchange offers telecom service providers a turnkey distribution channel with an immediate opportunity to generate revenue by selling routes to over 1,000 Members. With automatic ASR rating, sellers need only specify destination, price and trunk.

Arbinet's standard 15 net 15 settlement terms, as well as optional speedier settlement via RapidClear, improves cash flow through accelerated payment.

Buying on theexchange

Arbinet provides the flexibility to buy routes based on price, quality or a combination of both. Choose "Select" to buy from sellers with the highest quality routes as rated by theexchange. Choose "Direct" to route retail quality traffic directly to the in-country PTT or tier-one carrier.

Increase Profitability

MarketAccess on theexchange offers Members opportunities to achieve better pricing as well as increase network utilization by reducing the number of interconnections.

With MarketAccess on theexchange, Members lower overhead. Arbinet streamlines legal, billing and collection expenses, as well as minimizes disputes and bad debt.

Reduce Financial Risk

Arbinet's CreditWatchSM system and third party underwriting, backed by GMAC, enables **fully guaranteed payment** to Members. Real-time netting of buy and sell transactions maximizes credit line availability and increases liquidity.

Maximize Trading Opportunities

Arbinet's knowledgeable Account Development Specialist and Sales Teams will work with you to ensure an optimal trading experience on theexchange. Your dedicated representative can help you find opportunities, assemble and coordinate rates, and even place orders on your behalf.
